# ELDERLY CARE PRODUCTS

Design, production, sales, and service of medical devices, rehabilitation instruments, furniture, and daily living items.

We design for elderly convenience and safety, ensure strict quality control, and offer comprehensive after-sales service.  
Our elder-friendly products are carefully crafted and customer feedback-driven to ensure comfort and ease of use.

# ELDERLY COMMUNITY CONSTRUCTION

Elderly-friendly home renovations, senior care level assessments training rooms, and equipment rental.

We optimize community environments for elderly needs, improving accessibility in buildings and public spaces. Our equipment rental service offers flexible access to aids, with professional maintenance provided.

# AGING WITH DIGNITY

Our vision is both simple and ambitious:

To ensure seniors live with dignity.

What does "dignity" mean? Independence, self-reliance, grace, and respect.

That's why we've come together—to build a new era of silver living. Provide elderly with an independent, autonomous, and dignified way of aging, respecting their dignity and self-love.

OUR MISSION

# Live for love, Love for life

ZhongShan ENSU Technology Co., Ltd. is an innovative company focused on the **elderly industry (Silver Life Specialty)**. We have strong **R&D**, **production capabilities**, and comprehensive **supply chain** integration.

Our R&D team, with over 20 years of experience in medical equipment design, creates exceptional products tailored to the needs of the elderly. We have a robust **modified plastic production base** ensuring top-quality products through continuous innovation.

Equipped with **large-scale injection molding machines** and assembly workshops, we maintain high autonomy and control in production, efficiently handling various medical and plastic products, and earning customer trust with excellent quality and delivery.

We provide one-stop solutions for the elderly care industry, including:

**Elderly care products:** Design, production, sales, and service of medical devices, rehabilitation instruments, furniture, and daily living items.

**Elderly community construction:** Elderly-friendly home renovations, senior care level assessments, training rooms, and equipment rental.

Committed to high-quality living solutions for the elderly, we optimize our supply chain and enhance product quality and service.

# WHY CHOOSE ENSU

## R&D ADVANTAGE

With a team of senior engineers with more than 20 years of experience in medical equipment design, we provide more professional technical support from product industrial design, product structure design, mold design, modified plastic research and development, etc.

## MANUFACTURING ADVANTAGE

We have FDA Class I and II certification for medical devices, which meet strict safety and quality standards. Our products have obtained more than 80 patents and multiple German Red Dot Design Awards. We can provide you with unique solutions.

## INTELLIGENT ADVANTAGE

We have the R&D and design capabilities of intelligent functional innovation, and promote the intelligent application and popularization of elderly products from multiple dimensions such as sensing, identification, system, and execution, so that elderly products always keep pace with the times.

## QUALITY ADVANTAGE

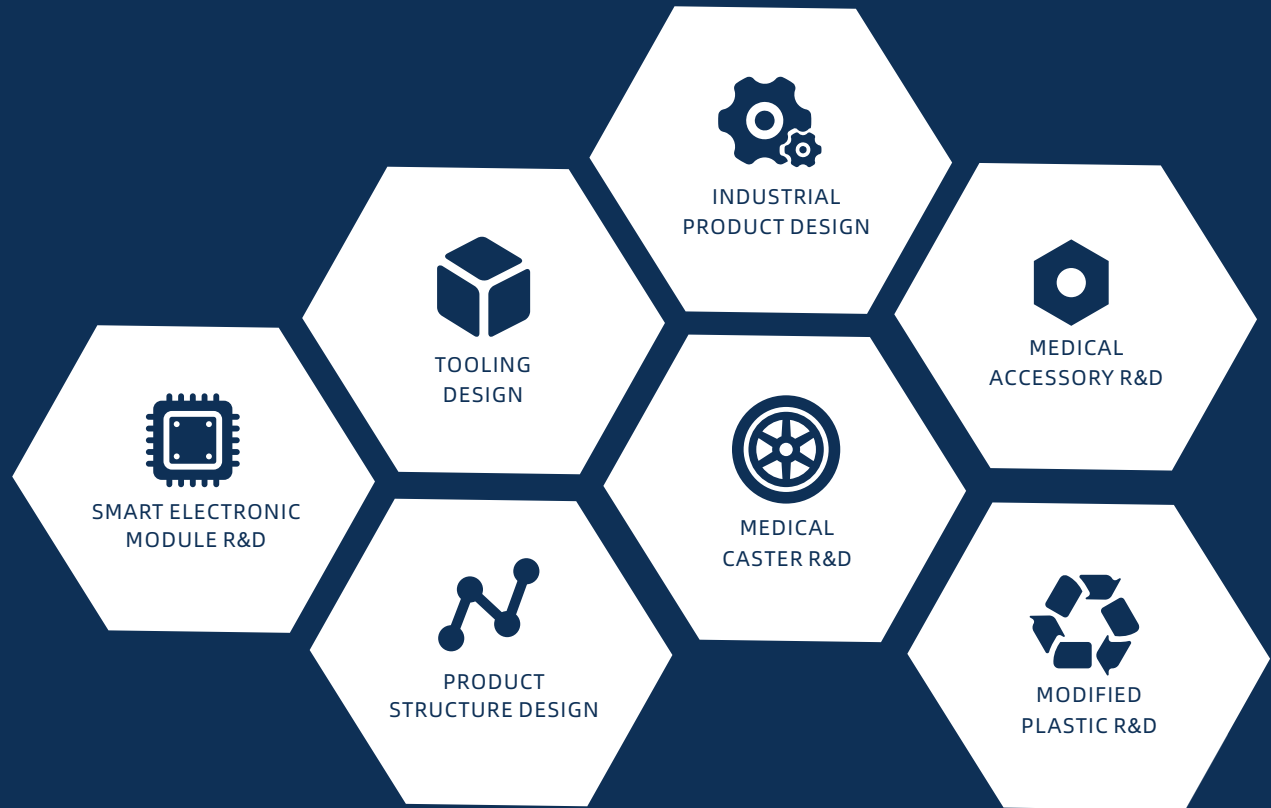

Our Product have FDA Class I and II certification for medical devices, which meet strict safety and quality standards. Our products have obtained more than 80 patents and multiple German Red Dot Design Awards. We can provide you with unique solutions.

## SYNERGY ADVANTAGE

Through strong resource integration, we collaborate deeply with other brands and hold multiple brand agencies. This enables us to offer diverse product options, from individual items to comprehensive solutions, meeting various customer needs.

# R&D ADVANTAGE

ENSU focuses on 7 R&D directions

WHY CHOOSE ENSU-R&D ADVANTAGE >>

# DESIGN TEAM

## INDUSTRIAL DESIGN

Multiple awards from the **Red Dot Design Award**, with up to **78** appearance patents. Unified design concept and style applied across different projects, creating a distinctive brand identity for our product series.

## STRUCTURAL DESIGN

Engineers with **20** years of medical equipment design experience ensure product safety. Their rigorous approach covers material selection, structural design, functionality, and risk mitigation.

## TOOLING DESIGN

Our in-house development and production of metal and plastic molds allow us to adapt designs and processes promptly to product upgrades and improvements.

## ACCESSORY & CASTER DESIGN

By developing our own Medical Casters, we ensure safety, maintain product appearance consistency, optimize production processes, reduce costs, and provide more cost-effective products without compromising quality.

# INTELLIGENT ADVANTAGE

ENSU FOCUSES ON  
CREATING SMART ELDERLY PRODUCTS  
WITH THE FOLLOWING TECHNOLOGIES:

GPS:  
NAVIGATION

FINGERPRINT:  
SECURITY

RECORDING:  
DAILY LOGS

FACIAL RECOGNITION:  
INTERACTION

LIGHTING:  
TRAFFIC SAFETY

VOICE RECOGNITION:  
CONTROL

PEDOMETER:  
HEALTH TRACKING

INFRARED:  
TEMPERATURE CHECK

LASER SENSOR:  
SAFETY

VOICE/VIDEO CALL:  
EMERGENCY CONTACT

| WHY CHOOSE ENSU-R&D ADVANTAGE >>

# MANUFACTURING ADVANTAGE

---

MANUFACTURING FACILITY

---

METAL PROCESSING

---

RAW MATERIAL PRODUCTION

---

PLASTIC MOLDING

---

DEDICATED ASSEMBLY LINES

---

WHY CHOOSE ENSU-MANUFACTURING ADVANTAGE >>

# MANUFACTURING FACILITY

Certified for hospital beds Class I and Class II

The hospital bed production base, leveraging experience and mature technology to ensure quality stability for new and custom products.

Covers the entire process from  
hardware tooling  
design to tooling manufacturing  
Including the following  
series of processes:  
Cutting - Stamping - Bending - Welding - Coating

# METAL PROCESSING

---

| WHY CHOOSE ENSU-MANUFACTURING ADVANTAGE >>

# RAW MATERIAL PRODUCTION

---

We have a dedicated team for modified plastic R&D and production, ensuring our products have a cost advantage and more stable performance.

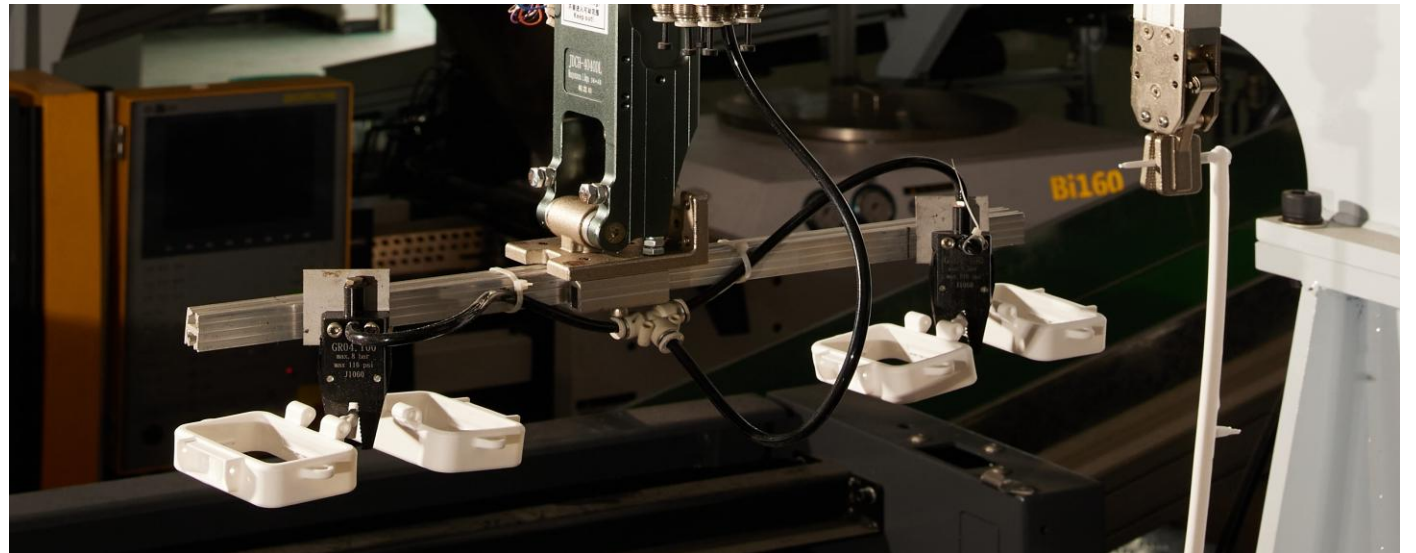

We control plastic quality at the source to ensure high-quality products.

# PLASTIC MOLDING

---

We support the entire process from plastic tooling design and tooling production to the realization of blow molded/injection molded products

# DEDICATED ASSEMBLY LINES

---

Dedicated Assembly Lines  
Each product has its own line  
Precise material supply  
and process management  
Ensuring efficient and  
accurate assembly.

---

## QUALITY ADVANTAGE

---

QUALITY INSPECTION

---

QUALITY CERTIFICATIONS

---

WHY CHOOSE ENSU-QUALITY ADVANTAGE >>>

# QUALITY INSPECTION

Our Product have FDA Class I and II certification for medical devices,  
which meet strict safety and quality standards.

# QUALITY CERTIFICATIONS

EUSN strictly implements international quality control standards to ensure product quality, and has passed ISO 13485, ISO 9001, FDA, CE, SCS, etc.

---

# SYNERGY ADVANTAGE

---

HOLDING COMPANY

---

INDEPENDENT PRODUCTION SYSTEM

---

# INDEPENDENT PRODUCTION SYSTEM

- Large Injection Molding Equipment
- Modified Plastic Raw Material
- Accessory and Caster Manufacturing
- Elderly Furniture Manufacturing
- Smart Electronics Manufacturing

Leveraging shareholders' years of manufacturing resources to build ENSU's exclusive supply chain.

- Ensure supply chain stability without relying on external suppliers.
- Better optimize cost structure and increase price competitiveness in the market.
- Facilitate targeted, continuous R&D and innovation.
- More effectively manage and protect core technologies and key processes.

# PRODUCTS EXCLUSIVELY SUPPLIED

LESSO Group's Elder Care Institution - Zhenpin Leshan

Guangdong Zhenpin Leshan Health Management Co., Ltd. focuses on improving elderly care services and the industry supply chain. We've created a 4000m² Senior Products Exhibition Center, one of the largest and most professional in the country, and have received the following accolades

- » Senior Products Exhibition Base, Guangdong Aging Industry Association
- » Senior Products Exhibition Experience Base, Guangdong Elderly Care Services Association
- » Guangdong Elderly Care Services Chamber of Commerce
- » Elderly Industry Incubation and Talent Training Base
